Operational/AVHAY

Ferenc KOMA Operation []

Re: DIR 13133

1. It has occurred to us that neither Vienna nor Salzburg may have notes on the operation mentioned in paragraph 4 of the reference.

2. The principal figure in this operation is Ferenc KOMA, Chief of the WIBK in Belgium, who has acted as contact man between the [Belgians] and the ZAKO group for some time. So far as we can determine, the relationship between the WIBK and the [B] has been a rather informal one involving, perhaps, an exchange of WIBK intelligence reports for Belgian documentation and other local support. Evidently, KOMA was approached and recruited by the AVH in Brussels sometime during 1947 and was promptly doubled by the [B]. The AVH has been primarily interested in information on the WIBK and on Hungarian refugee matters in general. Andras ZAKO is aware of the case and cooperates with the [B] to the extent of providing KOMA with letters and other incidental information which is passed to the AVH. KOMA has not passed deception material to the [B] for this operation and, in fact, we have advised the [B] to allow KOMA to report fully and freely to the AVH on the WIBK, as we consider this to be an overt organization which is undoubtedly penetrated at a number of other points. One rather unusual element was introduced when KOMA was asked recently to establish coverage of Polish refugees in Belgium. We are not able to explain why the AVH is interested in refugees of other nationalities and will appreciate [] comments on this, and whether this was done during his service with the AVH. (Note Vien-0448 and Varl-0926 for other indications of AVH interest in things Polish.)

EAVN-1449

A: BELGIUM

CIT: HUNGARY

3. Through surveillance, the [] have been able to identify Zoltan KOVACS and other AVH case officers who preceded him in the KOSKA operation, including Jozsef TIBERI who, as you know, was transferred from Brussels to Paris. The [] have also learned that Lajos BORSANTY, Charge d'affaires of the Hungarian AVH CASE OFFICER in Brussels, works closely with KOVACS. In fact, he is usually lurking just around the corner during KOVACS' meetings with KOSKA, and KOVACS often leaves KOSKA for several minutes to consult with BORSANTY.

~~ZOLTAN KOVACS, AVH CASE OFFICER OPIFIRING IN BELGIUM~~

4. Until rather recently, the [] collaborated with JAVELIN on the KOSKA double case and passed JAVELIN reports on all of his meetings with the AVH case officer. Late last year, the relationship between the [] and the JAVELIN case officers in Brussels deteriorated to the point where JAVELIN was cut out and our own [] brought in. Liaison between the two services continues, however, and we cannot be sure how much JAVELIN knows of this or other joint KOSKA-[] operations.

5. We are forwarding, as an attachment under separate cover, a report on KOSKA's meeting with KOVACS on 25 May 1953. The contrast between the instructions KOVACS gave KOSKA on that occasion and those given [] may be significant, as KOVACS quite patently went to great lengths to conceal the seriousness of the operation and to avoid alarming KOSKA. Combined with [] comment in DIA-3139 to the effect that the AVH may not be aware he knew of this operation, it appears quite likely that the AVH will resume contact with KOSKA. This corrects the assumption made in paragraph 3 of DIA 13133. We are still of the opinion, nevertheless, that an approach to KOVACS is desirable, all other factors being equal. If the approach is successful, the debriefing of KOVACS should be far more valuable than the continuation of KOSKA as a double. If it fails, our approach to KOVACS should not necessarily compromise KOSKA, if the AVH assumes, as seems likely, that [] did not know the particulars of case KOVACS was handling.

6. We will be happy to provide Vienna and Salzburg with further details on this case, if you feel they would be of assistance.
